The landscape and municipal approaches to social housing in metro Vancouver

Friday March 19th 2021

11am – 12pm (Vancouver Time)

2pm – 3pm (Montreal Time)

Free conference. In English, simultaneous French translation.
Registration required. Please write to vincentv@ucs.inrs.ca to obtain Zoom link

Abstract

Growing housing unaffordability and a growing housing divide among different socio-economic groups have led to increasing demand for affordable social housing in Metro Vancouver, especially for seniors and families. This seminar will review the social housing policy in B.C., typology and demographic coverage of social housing in Metro Vancouver, and the municipal measures to support housing affordability. It will also discuss the challenges facing the social housing sector.
